WEEKLY MESSAGE OF SAINT JOSEPH TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL TO THE VISIONARY SISTER LUCÍA DE JESÚS

The Arrow of Justice is pointed at the world; blessed are those who look inward and decide to live transformation, redemption and surrender before God.

The Arrow of Justice is pointed at the world; blessed are those who no longer battle to establish their will and prestige, their merits and opinions, but who surrender in humility before Mercy and Divine Rehabilitation.

The Arrow of Justice is pointed at the world; blessed are those who do not hide behind their responsibilities and tasks, behind what makes them feel indispensable, but who humble themselves before God, offering their service for the transformation of human consciousness.

The Arrow of Justice is pointed at the world; blessed are those who do not fear losing themselves or what they have achieved, but who open themselves up to transform and correct what they are, even if they break themselves.

The Arrow of Justice is pointed at the world; blessed are those who do not fear this Divine Ray, but who nevertheless cry out in every instant of their lives for souls and the whole world to be deserving of Mercy.

The Arrow of Justice is pointed at the world, and it will not be long now, children, before it is unleashed upon the face of the Earth. But I warn you and call you to live the Gift of Mercy, so that you yourselves may be the door and the bridge to Divine Mercy, so that even in times of chaos, purification and justice, your sincere, humble and transparent hearts may be worthy of receiving and transmitting Mercy to the world.

The Arrow of Justice is pointed at the world. That is why today I say to you: surrender and no longer resist, trapped in what no longer makes sense; open yourselves to the Truth and receive Mercy.

Peace will be established in the hearts of those who learn to love and to be merciful.

You have my blessing for this.

Your father and friend,

The Most Chaste Saint Joseph
