SPECIAL APPARITION OF THE VIRGIN MARY IN LAKE SHASTINA, MOUNT SHASTA, CALIFORNIA, UNITED STATES, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS, FOR THE MEETING OF PRAYER OF MAY 25

In the name of the Father, the Son and the Holy Spirit. Amen.

Behold the Lady of Silence, who through the Silence of God, contemplates the planetary situation, and especially the situation of souls.

It is this blessed and sacred silence which allows Me to protect the souls most in need of Mercy, because God's Love is very great and unknown.

It is His Infinite and Wise Love that, through the sacred silence, stops the forces of evil and destroys them. For there is nothing and no one in this universe, in Heaven or on Earth, within or outside of beings, that can oppose the Love of God.

When life and situations are not in the Love of the Father, evil enters and divides, distracts and disturbs minds and consciousnesses.

When the Spiritual Hierarchy many times called upon souls to silence so clearly, it was not only to establish peace on this surface, but also so that each one could carry out their soul searching and their reflection.

As you will see, My beloved and dear children, where will those sacred seeds that I brought you yesterday end up? Where will they be deposited? Where is the fertile land that the Divine Mother is searching for?

This is why I am here and I continue to search for this fertile land in hearts, but I seek a land in hearts, I seek the life of the hearts that is divested of itself and in surrender, far from the adversities of these times, but not absent from all that which urges humanity, far from indifference, close to love in order to be close to charity.

But not only in the service for those who suffer and have to endure the most, which is the spirit of the Hierarchy, to serve those who suffer and have to endure; but also the task of souls in this world, the spiritual mission, should consist in listening.

For this reason and on this day of the culmination of an important stage for the Work of the Spiritual Hierarchy in the United States, where it is possible to see, on this horizon, the rise of the future Light-Community, the Light-Community of Mount Shasta, the Divine Mother brings you this silence for you to live a synthesis, but not like the synthesis you have lived in other times, but rather a new synthesis; that is, a new reflection and meditation upon the aspects that have corroded your lives, including your spirits.

Because in the face of this difficult reality of the surface of the Earth, the Hierarchy can no longer waste its precious pearls, that is to say all its treasures of Heaven. Many more need to be consistent, very few are not enough. And this, dear children, first of all starts within each one, within the

decision that is taken for your own lives, within the actions that are carried out and have repercussions in many situations.

In this last cycle, for you to follow the steps of the Work of the Hierarchy, My children, it will be necessary to reformulate many inner and external situations. Here and now there must not be guilt or deception, justification or permissiveness. Here the Holy Spirit of understanding, science, wisdom and acceptance must reign.

Because when each one of you, time and again, is invited to take a new step and climb a new rung, there is something that needs to be purified. The Law of Purification will continue to act in these times, dear children, but not the way most understand or comprehend it. The Law of Purification comes to liberate you from yourselves forever.

As I told you yesterday, I repeat it again today so that you may not forget it: the Divine Mother also purified Herself at the Temple, when She offered Her little Son into the Hands of God. Is this wrong, by any chance?

The universe is dynamic and constant. And just as the universe is dynamic and constant, your transformation must be constant. Nothing in this universe can remain static or even motionless. The evolution of the universe can be measured not only through the degrees of love, but also through the degrees of consciousness. It is this that brings you closer to the degrees of forgiveness, which is the door that opens to redemption.

Therefore, be attentive, My children. The Hierarchy will not be able to stop in the face of the emergency of the planet, in the face of the need for peace in the nations and the peoples, of the urgent need for unity among consciousnesses. But each one of you, placing your hand upon the heart, ask yourself before the Sacred Heart of the Lord:

Am I willing to renounce? Am I willing to go beyond myself, for a Higher Purpose that I completely do not know, for a Higher Will that sometimes I cannot grasp?

For this, you have the master key of faith, a faith that must not be buried by incorrect actions carried out within the Spiritual Work of the Hierarchy, by condemnation or even punishment to those who do not deserve it.

Today My Son has sent Me through His sacred and blessed silence. Because you know that silence speaks more than words, that silence emits more messages than the word, because silence is healing, silence is redeeming, silence is renewing and sublime.

Each one will do, in this time, their own soul searching. We are still waiting for them, because the aspiration of Christ is that there be mature and decided apostles who do not retrogress due to the development of the times or even due to the events in life; but rather who, among all as brothers and sisters in Christ, may live under the Law of Love and Truth, Truth from which some still hide. The Hierarchy knows it, but does not judge it, because the human condition can go very far, it can try to paralyze our Plan.

The Hierarchy knows it profoundly. But it will not stop for this reason. The merciful help through an intervention in this world is urgent.

We will walk side by side with those who will follow Our guidance and do not modify it. This is Our most recent decision in the face of the planetary reality.

The boys and girls have grown up, it is time to assume, with spiritual adulthood, this Work, it is time to repair the hearts that have been wounded and hurt.

The inner world of the one to whom I am speaking already knows it, because My Son has asked this of Me as a supplication. There is still much to do, but all can be done if you will allow it.

Heaven does not violate human choices. Heaven only elevates, embraces and loves the life of each being, however imperfect. But the imperfection will be transformed by Love and because you will learn every day to live in the Holy Justice, which is not the justice that is practiced in this world, not even among you. Therefore, do not distance yourselves from the Truth.

In the name of My Son, I come to remove the blindfolds from some eyes, so that you may see the reality, and in this way understand it.

I will continue to pray so that everything may be redeemed and healed. It is no longer time to hide, it is time to face the end of times, just as the brave Hierarchy does and as Our Sacred Hearts impel you to also do.

All has been said. Now what is left to do is only to pray for the consequences and pray from the heart, as you have never done before. Because God is Love, but He is also Justice and He will never allow you to unlearn His Principles and His Attributes, and He will do anything as a good Celestial Father so that those who are blind may be saved.

I leave, giving thanks to you from the innermost depths of My Immaculate Heart, for all that was lived and spiritually built in the United States, including all that may emerge in Canada and Alaska.

However, Our gaze, and I want you not to forget this, is now upon all the necessities. The Spiritual Hierarchy is not selective, the Spiritual Hierarchy embraces, with Its Light, all those who need it, all the urgent causes, whether internal or external.

Thus, throughout the times and the centuries, and until My Son returns to the world, We, the Divine Hierarchies, work for peace and We hope that you will truly work for peace. Ask yourselves if you are doing this.

I thank you and bless all those who hear Me, especially the pioneers of the Light-Nucleus of Mount Shasta.

In the name of the Father, the Son and the Holy Spirit. Amen.
