FIFTEENTH SPECIAL APPARITION OF THE VIRGIN MARY ON THE HILL OF APPARITIONS, MARIAN CENTRE OF FIGUEIRA, MINAS GERAIS, BRAZIL, AT 8 p.m., TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The group met again on the Hill of Apparitions to receive the Universal Mother. Before beginning the work of prayer, Mother Shimani shared some words.

Mother María Shimani de Montserrat:

We will gather our energies together. We know we are all a little tired because it has been many days of intense activity and because the energy of the Divine Mother is very intense, and our bodies, our molecules are being shaken by Her energy so that they may become detached from what is no longer theirs to carry. This causes us to feel that our bodies are very tired, but that feeling is very positive for us because it shows us that our bodies are vibrating at a higher level and are adapting to receiving Her energy.

For this reason, we need to use our inner strength and be in peace and filled with the joy that everything is as the universe has foreseen. This is the time when we have to double our efforts so that She may find us open of heart and grateful for this Grace we are receiving.

So let us place our heart in Her Heart and call upon Her with our prayers. From here, let us open a path of Light to the Celestial Kingdoms, a path made with our love, our devotion, our immense gratitude, so that She may walk along that pathway of Light built by our humble love as children, as imperfect children who love Her very much.

As the prayer work began it was perceived that the group could not reach the same point as in the previous meetings. In spite of this, they persisted in prayer, trying to transcend their tiredness. Almost an hour later, silence was requested and a few minutes later, Mother Shimani announced the arrival of the Celestial Mother.

If the world is tired of seeing Me, what will happen to hearts? Why don't hearts change? Where will I pour out My Graces if hearts do not open?

Friar Elías del Sagrado Corazón de Jesús:

Afterwards, She said that the world was spinning in "normality," but that through the prayers, we still have time to ease the wave it will receive.

This is My last call for Peace. Let us meditate.

Friar Elías del Sagrado Corazón de Jesús:

The Divine Mother said that, as She is prodigious and worthy of the Lord, She will not leave any heart without an answer.

The personal questions were asked and the Divine Mother responded to them.

Go in peace and take shelter in My Heart. Let us meditate.

Thank you for responding to My call!

Friar Elías del Sagrado Corazón de Jesús:

Before ending, we want to share a symbolic image that the Mother showed us when She appeared and which is related to that call to meditate.

At the moment when the Mother asked "why don't hearts change," She began to cry deeply.

From the inner planes, we were telling Her that we would try to do everything within our power, and She responded that the world continued to spin in "normality." That was the reason for the Mother's crying. She asked that we transmit this so that we may truly meditate on what we are doing with what She is offering us at this moment, for us and for everybody.

Thank you.

Mother María Shimani de Montserrat:

It would be good if each of us, facing the symbolic image of the Mother, should go deeper, in our heart, on how all this that is happening has truly moved our being.

How many of us are already tired of climbing the "Hill" and wish it would end. If meditating on this is intense, it is the way we have of transforming ourselves and of deeply searching within, because this is the reality.

She is going to help us so that we may see ourselves and may transform. Let us not worry about falling down; let us rise again. A soldier of the Light is one who is capable of beginning anew every day.

Let us see if, in our heart, we are able to console the Mother so that Her tears do not fall here again. It is not to make anybody feel guilty, it is only for reflection.

Remember that when She speaks to us, She does so for all of humanity; not just for us. She weeps for all of humanity.

Notice that today we are fewer, and if we are all indeed making a great effort, this is a reflection of the state humanity is in, which at times is deeply moved, yet finds it truly hard to change.

So let us strengthen our hearts, let us say a personal prayer tonight before sleeping and try to place our heart in the Heart of the Mother, saying to Her: "Just as I am, with my limitations, You can still count on me."

Thank You, Mother of God, for all that You give us!
