DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Walk toward the Heart of God every day and seek to place your eyes, your heart and your aspirations always on the Most High.

Seek, child, your reference in the Love of Christ, in His Life, His word, in how He spiritually builds His Work. Because you are in a culminating moment of human evolution, in which many incomprehensible events will happen. Even, inside of you, will emerge feelings, thoughts and actions that you will not understand, but you must balance them with a simple prayer, service and union with God.

The old human is being purged within you and it is not only formed by the human experiences that you know and live. There is much more within you and in the human consciousness that you are completely unaware of.

Before these unknown and incomprehensible situations, only a greater Love will balance them, the Love of God.

For this reason, listen to what I tell you and do not stop praying sincerely, strengthening, everyday, the link of unity with the Heart of the Father because this will be your sustenance and the sustenance of the planet in the cycle that will come.

Your Father and Friend,

The Most Chaste Saint Joseph
