DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

The more tired and exhausted My disciples become for permanently working for Me, it is a sign that with these offerings I can save many lives and rescue thousands of souls from daily downfalls.

Each effort and sacrifice offered to the Lord, no matter how small it seems, is recognized by the Universe, because the value is not in the big or the small, but in the authenticity and in how each service to God is offered with love.

Thus, I encourage you to love sacrifice and make it a part of the apostolic consciousness of each being, because this balances significant situations that are unbalanced on the planet.

Dare to follow this path because you will never lack rest, repose, and recuperation.

Each loving action offered to Heaven has incalculable value for humanity.

In this way, your peacemaking spirits will be present at each step, and once again the world will be granted a greater time of mercy and of peace.

I thank you for holding My Words in your heart!

Who blesses you,

Your Master, Christ Jesus
