Daily Message of Mary, Rose of Peace and Mother of the refugees, transmitted in the Marian Center of Aurora, Paysandu, Uruguay, to the visionary Friar Elías del Sagrado Corazón

Dear children,

The missionaries are now at the gates close to the conflict and to the human disorder of millions of exiled people.

Your Heavenly Mother is now ready to begin the rescue of the essences that have been compromised by terror and by evil. Thus, your Mother, through the missionaries, is preparing to go directly to meet the spiritual and material needs of Her children in exile.

With vigilant eyes and with charitable hands, the missionaries will be carrying in their hearts the certainty that Christ will dispel all evils and, through His apostles, will save the spiritual dignity of the refugees.

At this moment, the angelic armies of Light are preparing to enter the area of confrontation and, silently, they will comfort the souls that are in most need of hope. Terror and persecution will not be able to be defied by anybody.

The imitation of Jesus, silent but attentive, will be the key for souls to be aided by the light of the self-giving hearts.

We are now in the hour of recognizing the reality of the times. May the consciousness of those who did not go on the mission be in protective prayer for each one of the missionaries; thus, the chain of peace will be firmer and My Heart will be able to triumph.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace and Mother of the refugees
