**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

Raise your consciousness through the silence of prayer and the aspiration of discovering the spiritual science of life. Let your nature of divine creature be revealed through the humble aspiration of expressing what you really are, what you were born to be.

Life on Earth, up until today, child, only expresses a synthesis of lived experiences by each being throughout its evolution. Even though this planet was created to generate the renewal of life, nothing which is lived on it is new.

You were not created to express skills but, yes, virtues; spiritual and inner virtues that renew the Gifts of God when they are lived by the expression of love in the human heart.

Everything in life on Earth keeps in itself a sacred purpose and a divine and spiritual science that, when lived, transforms and raises the planet so that it reaches the Heart of God.

The Kingdoms of Nature, the elements, the composition of beings on Earth, the groups of family life, some forms of expression of human life, everything keeps in itself a sacred purpose. And human beings bear within the synthesis of that purpose, the key for its manifestation, the mystery for its expression.

Nature fulfills its part, up to where it is possible. The consciousness of the planet fulfills its part, up to where it is possible. Even God Himself fulfills His part, up to where it is possible for Him. But, in order for everything to be renewed, the human heart must awaken, raise itself and collaborate for the elevation and renewal of all life.

Human existence is an incomprehensible mystery for whom does not know the Love of God.

Meditate on what I tell you and when you are before a manifestation of life, be it an element of Nature, the Kingdoms, be it a fellow human, emanate love and gratitude and aspire that they express the best.

This is how evolution is built: being for the other the motor that leads it to love.

Your Father and Friend,

The Most Chaste Saint Joseph
