DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS????

Fraternity, Unity with God, Faith and Hope are attributes that must always reign in the human heart.

Based on the principle of the Unity with God, which has never ceased to be Unique in the diversity of the manifestation of His Consciousness, experience, you as well, the unity among yourselves as one body belonging to the Divine Consciousness.

The Creator multiplied Himself and expanded in different forms of life, expression, manifestation so that His Perfection would become life and matter, so that the Love He expresses in His Divine Spirit could become flesh, mind, feeling, soul, spirit, vibration, sound, so there would be no limit in the manifestation of His Love.

God permeates everything that was created and gives all creatures the opportunity of being in likeness to Him. Aware of the Principles of the Creator, you must imitate Him. May love be multiplied in your hearts, may it be expressed in different ways, with words, prayers, silence, actions, with inner, spiritual, or physic communion, at the time of receiving the Eucharist.

As a group, may you express yourselves as the Consciousness of God: in many ways of life, many ways of serving, infinite possibilities of loving, but all this without ever losing the unity.

Although the existing creatures are so different from each other, this does not remove from any of them the essence that unites them in the divine likeness to the Creator Father.

I tell you all these things because it is time for unity, reconciliation, fraternity as bridges for love.

The different missions that are being carried out today show the path that each one must tread in their daily lives: overcome the differences between races, cultures, languages, nations, religions, to experience, as humanity, the Unity with God.

May you be aware that the time will come to unite your consciousnesses in one purpose: bring peace and reconciliation to Earth.

The suffering of the human heart helps to overcome the barriers of loving, and the need to find peace unites you.

Both in the Middle East and in Chaco, you will understand what the material, mental and physical purification causes in human consciousness. You must be before these extreme situations not only to help but also to learn. So, with this learning in your consciousnesses, you must ask yourselves if it is really necessary to go through similar purifications to learn to experience love, to seek unity with your neighbor, to transcend differences and walk towards the implementation of the Plans of God as one race.

Pain makes you look for love, but the possibility to love exists within your hearts, latent as a natural condition of the human being. You must only step out of yourselves and surrender to the search of this true Christic Love; love that unites the universes, love that unlocks evolution, love that makes you in likeness to the angels and allows you to return to God.

Before the situations of the Middle East and Chaco, you may profoundly reflect and make your choices: wait for the times of chaos or learn how to love as of now, surrendering yourselves to the Grace of the Unity with God.

Your Father and long-standing companion,

The Most Chaste Saint Joseph
