DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Sing, because singing is the relief of the soul and the reparation of the Heart of God. Singing is the sacred manifestation of the Breath of the Creator. The song that emerges from the depths of beings finds its echo in all life.

Everything that was created by the Father responds to the sound of the soul that sings with love. For this reason, sing and elevate your voice to God as a sincere praise so that creatures may find the path of return to the Heart of the Father.

Singing supports the weight of the cross of this time. Singing brings relief to the movement of the transition of the times. Singing opens the path to the new being, for the original expression of the human heart.

Thus, sing, child, with the sincerity of your heart, with the purity of your soul. Sing so that the world may finally achieve peace.

Your Father and Friend,

The Most Chaste Saint Joseph
