Daily Message of Mary, Rose of Peace, transmitted in the city of Lima, Peru, to the visionary Friar Elías del Sagrado Corazón

Operative Groups of Prayer for Peace

In these times, My Divine Plans are to form praying souls, and at the same time operative ones, who take on the task of prayer as an essential commitment in their lives.

The operative groups of prayer are formed by consciousnesses that have already lived a life of prayer for a long time, or by souls that are just beginning the path of the life of prayer.

All souls that are placed in these groups wake up the gift of their devotion and are able to deepen on the path of contemplative life.

At this time, in which the planet has need of true pillars of prayer, the Divinity summons souls from different places so that they take on the fundamental task of responding to the greater call.

The operative groups of prayer are formed through their response to a planetary or universal purpose. The operative groups of prayer are based on a devotion to the Sacred Hearts, and they come together to build that bridge which will unite the Earth with the universe.

Thus, the groups work without receiving anything in return, because they understand that the need for prayer in these times is real.

The operative groups of prayer may also be spiritually integrated by different consciousnesses from different parts of the world that are connected to the Heart of each Divine Messenger, thus spontaneously creating a network of prayer that unites souls with God.

All the groups of prayer have a profile of union with the Divinity; what is important is that each consciousness enter this school so as to be able to receive the spiritual impulse that will sustain it in the end of times.

The groups of prayer exist as a loving service to the planet and to an indifferent humanity.

I thank you for responding to My call!

Who is united to the groups of prayer,

Your Mother Mary, Rose of Peace
