**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

Children,

Patience in transformation and in your own purification is primary. Remember that you are before a human condition that degenerated throughout the centuries and you are before codes that emerge from your consciousnesses to be transformed, and they even go past life on Earth, for their roots are in the Universe.

Always remember that the One Who came to the world to give you an example was the Son of the Living God and He had to suffer the evils of the Earth and transmute the atavisms of humanity to open the path for you.

The transcendence of the human matter of Jesus started since His gestation until His last breath on the Cross. If the Living God worked in each instant of His life to culminate with His lesson of love, do not expect it to be different for you. How do you want to sanctify your bodies and souls if you are only beginning to understand this path now?

The Son of God was aware of universal life and its mysteries; He knew all the cosmic sciences because He was one with The One Who created them; and even so, in order to free the fear of His last Cell and experience love in full with all the levels of His Consciousness, He had to reach the Cross and forgive everything that He had experienced up to there.

Children, you have a long way to go to reach perfection. Do not be in a hurry, be patient. However, be constant and persistent and do not become comfortable in the fact that transformation will last you a lifetime.

Yes, the absolute transformation will take your whole life, but every day you must achieve a new step, so that at the end of this life you may be worthy of reaching other celestial worlds and dimensions that bring you closer to God.

The transformation will last a lifetime because evolution is eternal and not because you will always be in the same place. Each day, a new understanding and a new step must occur, based on permanent effort. Do not worry whether you take long or short steps, because each day and each cycle will lead you to a different step.

What really matters is that you do not stop and that you be constant.

Open yourselves every day so that the Love of God may transform you and withdraw a little of yourselves from your own consciousness so as to give space to Love and the divine Presence.

Each day, remove an object of your inner dwelling place to make room for the Celestial Dweller that will come one day. At some point, you will have the house empty and clean to receive Him.

Your father and long-standing friend,

The Most Chaste Saint Joseph
