DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN WEED, SISKIYOU, CALIFORNIA, UNITED STATES, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Wherever you are, unite your heart with God to fulfill His Will and manifest His Plan.

The Will and the Plan of God are much greater and vast than your little mind can conceive. Meanwhile, it is through the simple things where your heart finds the path to live this Will and fulfill this Plan.

The Creation of God is vast and broad within the dimensions, both in Heaven and on Earth. However, to remember this and recognize it today, being able to access these sublime realities, all you need is to be simple of heart, pure of intention and ready to love and serve more and better, each day.

Even though your physical eyes cannot see extraordinary existences and manifestations of life, your heart may participate in that which is invisible and your soul may travel through the eternal realities when you are united with God.

Humanity was created for much more than just seeing and feeling the realities of life. Human beings were created to unite these realities, live them and be within them at the same time.

Because just like the Heart of the Celestial Father, the hearts of His children have the possibility of uniting within themselves all Life, of being united with everything and participating in all dimensions of existence.

Thus, before perceptively seeing, feeling or experiencing Divine Truth, seek, child, to surrender your heart to God, and, through the yielding of your spirit and of each part of your consciousness, become one with all of Creation.

The dimensions dwell within you and your heart can dwell in all of them, and experience them when you are simple and true.

You have My blessing for this.

The Most Chaste Saint Joseph
