DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Love for the Plan of God is the art of learning how to deepen oneself in spiritual life in order to put aside human plans and comprehend and love the Plan of the Creator.

Love for the Plan of God goes hand in hand with love for the universe and for this planet, with love for all creatures, for all life. Because it is when a consciousness awakens this degree of love for life that it starts loving that perfect Thought which God has for evolution and for the good of all His creatures.

After loving God, beings begin to love life, and all this is a part of this One God, present in all things.

Deepening into the science of the spirit, human beings find out that there is a perfect Thought emanated by God while creating His children, which is the guide to the return to the Heart of the Father. Through this Thought, the Creator drew a Plan for the return toward Unity with Him.

Understanding this, you can even more come to know and understand the Love of God, He who, being aware that He was launching His creatures into the immensity of Creation, included, from the beginning, all of them in His Plan, and those who follow Him will not only return to His Heart, but will also bring with them the renovation of love in order to contribute to the Divine Consciousness.

Loving the Plan of God is loving the history of Creation, of life, it is stepping out of human smallness, of the human and planetary planes, and embracing, with heart and consciousness, a higher reality that remains in silence, until today, waiting for the awakening of the beings.

Let your consciousnesses abandon that which is small, petty, and embrace the Infinite, the Whole, the Divine Love. Love the Plan of God.

You Father and Friend,

The Most Chaste Saint Joseph
