DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF CRYSTAL RIVER, FLORIDA, UNITED STATES, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

Dear children,

As the Mother of the North-American Indigenous Consciousness, I come today to re-establish in the inner worlds the bridge of union and contact that existed between these peoples and God.

It is so that after having gone through the cities of Oklahoma and Orlando, your Holy Mother begins this new cycle in the United States, with the presence of the monasteries of the Order founded by My Beloved Son.

These monasteries in the United States will have the mission of working in the awakening of the consciousness through prayer and instruction, stimulating in the hearts the search for service, for the most forgotten ones in hospitals, nursing homes and in the city streets of this country.

In this way, Divine Mercy will become visible for all consciousnesses, and the possibility of living reconciliation with the Father will be more real and true for all the North Americans.

It is so, that the monasteries will teach souls to reconnect with the Divine Source and, at the same time, new prayer groups, which will be formed throughout the different cities of the United States, will learn to internally light up the mirrors of their hearts.

In this new cycle, in the United States, the Order founded by My Son will create the necessary bases for new members of the Light-Network to come forward. This will provoke, in this North-American nation, an opportunity to start being conscious of the existing imbalance and the waste generated in the material life, as well as the recovery of human dignity.

This will promptly allow some states of the nation to enter, by means of the spiritual help of the Center of Love of Mount Shasta, into a phase of regeneration of the spiritual consciousness of the beings of the surface, as well as a deepening into the contact of each being with their souls.

This task will require many sacrifices and efforts so that the people from the United States may abandon some situations and conditions of oppression in time to enter into a state of healing and redemption.

Therefore the collaboration of the North Americans and of the non-North Americans will be indispensable, and, this must be well organized.

I will count on this part of the work with the help of everyone.

I thank you for responding to My call.

Who blesses you,

Your Mother Mary, Rose of Peace
