DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN PUNTA COLORADA, PIRIÁPOLIS, MALDONADO, URUGUAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The oceans are great planetary receptacles and vortexes of transmutation.

During certain times of the year, the oceans have to purify, purge and transmute onto the surface all the harmful and physical, as well as spiritual effects that the human being provokes.

The only way in which the oceans, as consciousnesses, can continue carrying out their task of elevation and of purification of the human consciousness is by, every so many cycles of the year, they must intensely release all that humankind places within them. But this movement of purification that the oceans experience is not sufficient.

Thus, the great elementals and devas of the marine species, such as those of the whales and dolphins, help in this immediate purification, so that the consciousness of the oceans can renew, and thus, continue working on the harmony and the planetary equilibrium of the emotion of humankind.

If humanity truly valued and respected the oceans, it would discover, through a personal connection, what the great oceans represent within Universal Creation.

I thank you for keeping My Words in your hearts!

Who blesses you,

Your Master and Lord, Christ Jesus
