DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Dear children,

My Heart already contemplates this new year, full of challenges and of projects for our God.

A year in which faith must be further strengthened, and the knowledge and the formation of the disciples of Christ must now be taking place so that the Work may also strengthen and mature; that it may mature in the consciousness of all so that the spirit of commitment and responsibility may definitely awaken to what it means to carry forward the purpose of the Heights.

We are on the way to that goal, My children, that is why perseverance, constancy and discipline will bring about a rhythm in all things, as part of a universal rhythm.

On the other hand, children, also in this new year the time has come to unconditionally take a step in unity; a unity among brothers and sisters that is capable of representing the fraternity of Christ, a unity without traces of division that is apparent or stimulated by some human or personal impulse.

The time has come to work for this unity, and the key that will open that door will be the Truth, the Truth that you are able to reflect, the Truth that you can be and feel.

This will build and support the pillars of a Work that is not based on what is individual or petty, a Work that only lives and beats through the heart of the Hierarchy.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
