Daily Message of Mary, Rose of Peace, transmitted in the city of Assisi, Perugia, Italy, to the visionary Friar Elías del Sagrado Corazón

Light will always defeat evil, because evil is dazzled by the Light of God, which is invincible, strong and powerful.

Light is based in love, and it is love that provides the strength so that the Light is able to act with determination.

The Light of God is incomparable, neutral and precise. It acts on all the levels of the Creator Consciousness and can manifest in three ways: through the Love of the Father, through the Knowledge of the Son, and through the Wisdom of the Holy Spirit.

Light is capable, as essence, of penetrating the deepest layers of planetary life, because it acts through equilibrium, equality and justice, principles that are born of the Primordial Source.

The Light of God can solve the impossible, bring clarity to what is confused, and dissolve what interferes in the life or the inner essence. This Light, with its principle and with the movement of its energy, dissolves and makes transitory that which is opposed to it.

Because it is of God, it is an intimate, inner and non-material Light that fosters harmony and order in the spaces.

The Light of God is equitable and just, because it elevates and ignites what is apparently dark. It is a Gift of God that brings a revelation of the new to humanity and dispels what is static or resistant.

The Light conquers because it is neutral, and at the same time, peaceful.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
