DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF ORLANDO, FLORIDA, UNITED STATES, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

Close your eyes to superficial life and open your consciousness to immaterial life.

Dear children,

After having been on pilgrimage throughout the United States of America, crossing the nation from one end to the other, your Heavenly Mother, by request of the Father, finishes Her pilgrimage in Orlando, a place where illusion and fantasy are the main content of the life of many souls, which we call entertainment.

Close your eyes to superficial life and open your consciousness to immaterial life.

The Father has sent Me to bring a little more consciousness, and, in this way, be able to remove from deceit millions of souls that are submerged in this plane, and, most of all, who confirm it and believe in it.

Children are the main object of the elaboration of gruesome plans, coated with beautiful artistic fantasies that cause all attention to be placed upon that which is superficial, leaving consciousnesses very hypnotized for quite some time, without reasoning abilities or logic, and with a lack of discernment.

Close your eyes to superficial life and open your consciousness to immaterial life.

The Plan of My adversary was well made, because, through entertainment, people forget they have a soul that is capable of evolving and growing spiritually.

In this way, the inner senses of the consciousness are blocked and replaced by external stimuli, filled with fanaticism, desires and ambition. All these effects have an impact on the spiritual plane of the soul, especially when a life of prayer does not exist nor is it practiced.

Close your eyes to superficial life and open your consciousness to immaterial life.

The games that the world offers at this present time encourage constant competition and separation amongst people, leaving great gaps in the space of the consciousness, which are used to inseminate codes opposed to love and truth, for example, codes of power, ownership and excessive consumption, generating an imbalance in all planes of consciousness.

Entertainment was a complete deviation from the Purpose because it was an energy that from the beginning attracted other false needs, capable of controlling and manipulating the lives of people through systems created for this purpose.

Close your eyes to superficial life and open your consciousness to immaterial life.

In this sense, entertainment generates, throughout all the bodies, an illusion of mental rest and a supposed joy that pleases the plane of emotions.

If all this is observed with maturity and wisdom, it can be perceived that there is absolutely nothing spiritual or evolutionary that exists there. The lives of souls that are always submerged in this lower field of consciousness are within this roulette wheel game, from where, afterward, it is very difficult to come out of.

Determination and discernment also become discouraged within human beings, to the point of leaving the consciousness highly dependent on something that is purely artificial and fictional.

Close your eyes to superficial life and open your consciousness to immaterial life.

If at this time souls are still submerged in these realities, such as entertainment, and allow themselves be constantly abducted by the codes that My adversary radiates through the systems of entertainment and leisure, humanity will remain in a subliminal state of hypnotism and profound indifference, since their inner senses will be deactivated and disconnected from consciousness.

Those who awaken to higher life, and still do not know it, must make the greatest effort in the name of humanity in order to be able to balance, before the Universe, what millions of souls live all the time in opposition to the true essence and true evolution.

Close your eyes to superficial life and open your consciousness to immaterial life.

In this incarnation, souls lose the chance of living self-knowledge and of penetrating the universe of spirit. Only when the soul abandons the material bodies does it become slowly aware of the deep illusion that it was living, and then it is taken to another plane, to another school of learning, known to souls as Purgatory, where they can learn how to settle and balance what was not learned during incarnated life.

Close your eyes to superficial life and open your consciousness to immaterial life.

Because of this, at this hour, it will be important for all to know that humanity resists learning about higher life because it is constantly immersed in the ambiguity and restlessness that is generated by the living of material desires, which have no inner meaning, and, even less, a spiritual one.

Many souls will become aware of their degree of illusion when it is too late. In this way, the Mother of Love approaches one of the cities in the United States that rules a large part of the planetary consciousness, making it dependent on entertainment and upon fun.

Close your eyes to superficial life and open your consciousness to immaterial life.

In an extraordinary and inexplicable way, your Heavenly Mother has received a higher permission to descend over a city, such as the city of Orlando, to leave certain seeds of light sown in the depths of inner beings, which in the future will bear fruit for the new times of the planet.

It will depend on each soul and on each being to decide to abandon this illusion, which is already part of a dimension where souls live a personal hell, created through the results of games and entertainment.

Even those capital energies will be purified during the acute cycle of humanity. The time has come for the soldiers who are awake to offer their prayers for this whole reality that causes the planetary consciousness to descend toward the lower planes, and, in this way, leads the subconscious to depend on totally artificial and lifeless recreations.

I hope that the most awake may work double on behalf of those who are sleeping and those who do not have the inner resources to break away from this.

Close your eyes to superficial life and open your consciousness to immaterial life.

The closing of this pilgrimage in Orlando will try to leave, sown in the consciousnesses, an awakening capable of making it possible to rethink the forms in which millions of people live in the world.

It is for this reason, dear children, that every day I invite you to close your eyes to superficial life and open your consciousness to immaterial life.

I thank you for responding to My call.

Who loves you and blesses you,

Your Mother Mary, Rose of Peace
