**Daily message of Mary, Rose of Peace, transmitted during the journey from Santiago de Compostela, Spain, in Lourdes, France, to the visionary Friar Elías del Sagrado Corazón**

Whoever has lost their faith or has been wounded by some human cause, will always doubt the action or the mystery of God.

This form of faith must be healed by a greater Grace, able to restore and to dissolve this wound.

In these times, the action of the adversary tries to alter the faith of the souls, through situations or unpleasant experiences that modify in the soul all that it believed.

For this reason, prayer and regular confession with Christ allows that certain events and experiences, that debilitate the faith of a consciousness, can be healed.

In this way, experiencing the profound healing of the faith of humanity, the charism of prayer, for example, will solve the deficiencies that the souls may have after having gone through certain events.

In this sense, if there is this possibility of healing the faith that was wounded or damaged by human beings, the soul, that has gone through this experience, will be freed from placing obstacles and objections where there are none or in other places that resemble reality.

In these times it is necessary that the souls place their living faith in the sublime space of Heaven.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
