Daily Message of Mary, Rose of Peace, transmitted during the journey from Lisbon, Portugal to Rome, Italy, to the visionary Friar Elías del Sagrado Corazón

In these times, My children of the world place their attention upon all that is external, neglecting their great inner world, where God dwells.

Few of My children place their attention upon the infinite richness of their inner world, and this is painful for Our God.

Hearts are trapped by all that they call "innovative" and great planetary hypnotism surrounds the planet, especially humanity.

For this reason, I have asked My beloved Son for permission to return to the world as many times as necessary so that your Heavenly Mother may awaken humanity ahead of time.

With the prayers of My children, I can intercede. With the prayers of My children, I can reach where the greatest planetary need exists.

Now your Heavenly Mother, the Queen of Peace, goes on pilgrimage with you to Italy, with the mission that the sacred ecumenical union among all believers of Christ, Our Lord, may be accomplished.

I accompany you, guide you and protect you with the maternal Light of My Heart.

I thank you for responding to My call!

Who blesses you and is among you,

Your Mother Mary, Rose of Peace
