Daily Message of Mary, Rose of Peace, transmitted in the city of Assisi, Perugia, Italy, to the visionary Friar Elías del Sagrado Corazón

Dear children,

The path of the prayer of the heart will always lead you to experience a great change in consciousness and a great change within your life. Prayer will allow you to feel your true existence, and, in this way, you will find the meaning for being here in this definitive time.

Everything that the prayer of the heart can do in the life of a sincerely devout soul is indescribable. It is thus that, in these times, the prayer of the heart can open the doors to the universe of Grace, Mercy and Healing for the hearts of the world.

Prayer is capable of avoiding planetary catastrophe and can lead souls that are in danger and need to enter the path of protection.

Thus, prayer is a great mystery to be unveiled as within its essence lies the path for simply living new things.

Prayer represents a dialogue that souls must have with God at the moment of entering into communion with His Divine Spirit.

I thank you for responding to My call!

Who blesses you always on this path of prayer,

Your Mother Mary, Rose of Peace
