DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED AT THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Children,

Today I bring to the world the Grace of God, which is poured out like the rain that touches and nourishes the Earth. By means of this divine grace, I dissolve evil and hearts are rid of their pains, anguishes and sufferings.

Today the Grace of God descends, that powerful divine science that is not deserved by humanity but which is clamored for by the voice of those who pray with the heart.

The Grace of God is like a sun that shines in the firmament: it is like the sun that is born in the dawn of the life of each being; it is like the sun that withdraws during the night and illuminates the inner worlds.

Today it is the Grace of God the one that, like a rain of light, touches the planet and penetrates the deepest layers of the land and of the consciousness in order to restore them.

Today it is the Grace of God that works the miracles in the life of those who believe in it; it is the grace that strengthens the faith of the believers in Christ; it is the grace that transforms all of the planetary life.

Although there may be chaos, persecutions and humanitarian crises, the Grace of God somehow comes to those who suffer the most; grace flows like a great river and pours out upon souls like little sparks of light.

It is by means of the constant prayer of those who invoke Universal Mercy that Grace descends through the simple instruments that offer themselves to it, day by day.

Today it is Grace that touches the door of the heart and thus a door opens towards new opportunities to love and to forgive all experiences lived.

In the Grace of God, you will find the hope yearned for and the infinite light so much sought for; it is the fount that feeds the spirit and transforms the soul that opens to receive its divine fire.

Today, Grace repairs all human consciousnesses and, in silence, God contemplates what His Love accomplishes in the essences created by Him.

Grace heals the deepest wounds and reveals to hearts unique joy and exaltation. Because within the Grace of God is the conversion of the hardened heart, is the healing of the sick soul; within grace is the redemption and the faith of the one who never believed in God.

It is Grace that is born today like the Dawn and unveils the mysteries of love expressed in the gifts of the Creation.

Grace touches the Earth today, just as the praying voice of My children touches and reaches the Heavens, establishing communion with the Creator Father.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
