DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDÚ, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Look to the horizon and walk toward the new Sun that begins to rise. Let your heart be fixed on this Light and on the path that leads you to it.

Go with firm steps so that you inspire others. Go with your heart in peace, so that you may help those who have lost hope.

Let the sieges and the darkness of the path pass with the cycles and the old time of this Earth, and continue walking toward the new Sun.

To walk toward the new Sun is to love in spite of the mistakes, the fears and the human condition.

To walk toward the new Sun is to forgive, knowing that within each being there is an essence that is waiting to express itself.

To walk toward the new Sun is to serve those who are far away and in the same way, learn to serve those who are around you. Let there be no distinctions between the hearts in need because the need for love is unique in every place.

To walk toward the new Sun is to search for God within oneself and, in prayer, dive into His mystery.

To walk toward the new Sun is to see that the old time ends and that, with it, all illusions collapse, but still do not lose hope of a new life.

To walk toward the new Sun is to begin to be new, practicing what you already know of the new life. If you know it is born from love and it exists to be an expression of the Love of God then, child, begin now to be a part of this life. Be love for a world that is thirsty for renewal and peace, be water in the desert of the last days.

Your Father and Friend,

The Most Chaste Saint Joseph
