DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF COLOGNE, GERMANY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

There are certain tests that, although they cause occasional pain or discomfort, help to place consciousnesses in a different point of their evolution and awakening.

These tests lead souls to be able to define themselves and thus find meaning for the purpose of their existence upon this planet.

These experiences that lead consciousnesses into maturing to some degree make them define themselves, and also awaken them with the intention that, through the tests, hearts learn to choose the paths they will tread in order to someday reach full holiness.

Souls experience tests daily, but what each soul must perceive is the meaning that each test holds, in spite of it being intense or painful.

Behind each test lies the possibility of detaching from self and of no longer accepting this human condition that used to lead you to make mistakes.

Every test can be overcome with love, knowing that each circumstance of life is presented to elevate the consciousness even further, stepping out of daily routine and entering into the true reality of these times.

Tests cause us to deeply change.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
