SPECIAL MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Third day of the novena

I was still young when I came to know the Essene people in the desert. God placed a great mystery before Me, which, at the same time, was absolutely different from everything I knew - as a culture, as spiritual life and as a social way of life- but it was also known within Me. It was like a mirror of everything I held within Me, like a hidden life that could not express itself because it could not find space for manifestation.

Even being before something new and unknown, a lesson that transcended the Sacred Books and was renewed in each instant - just like Life- I launched myself into this experience and allowed My inner world to find that safe place, which it had searched for, for so long, in order to express itself.

When you are before a new teaching or a new way of understanding Life, when you are faced with something that calls you to a renewal, meditate on My example and pray to God, in My Name, saying:

Lord,
just as Saint Joseph recognized
Your Impulses and Your Truth in His Life,
teach us to be before the new and
allow us to be renewed, without fear,
by Universal Truth.

Amen.

These will be times of many tests, but also of many revelations. You will be faced with Truths that you did not know and you will also be able to more broadly understand what you were taught through symbols and parables.

For this reason, children, pray and prepare your hearts so that you do not fear being faced with that which is new.

Your Father and Friend,

The Most Chaste Saint Joseph
