DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS????

Throughout the history of humanity, as well as the one of the universe, each act, feeling, thought and intention of the beings remains embodied in the planetary consciousness.

When a being acts in a correct way and lives an important learning that must be experienced by all, something that would lead the race to take a great evolutionary leap, such experience is distributed as a code of light for all the human beings and, in this way, everyone receives an opportunity to evolve and learn.

When humans act incorrectly and unite to the actions of chaos and of evil, these experiences also remain embodied in the human consciousness and in the consciousnesses of the nations, preventing the souls to live according to the Plan of God. While they are not liberated from such situations through the forgiveness and the understanding of what they lived, they can spend centuries remembering the same suffering.

Also the executioners, those who committed the mistake, do not receive an opportunity to redeem themselves before God and balance the past, because, for that, humanity itself must generate codes of love that may be more powerful than any darkness.

When the Divine Messengers arrive to the different nations, They do not only come to bring peace and the awakening for those who dwell there, but also to liberate and to forgive, with the power of Their Love, all the past that prevents the Kingdom of God to descend to those places.

Therefore you must be more conscious of the invisible task of God by means of His Messengers and also be participants of the liberation that you carry out in each pilgrimage.

To this, be whole during your prayers: devoted, truthful, united to God with the word, with the spirit and with the heart. Feel yourselves as a part of the human consciousness while you pray and, as well the human body unites its energies to heal some wound, unite as human consciousness in order to deposit the Light of God in all of the spaces of the world.

You know that humanity has made many mistakes throughout the centuries and continues to distance itself from God; for this, now has come the moment to generate the correct balance, until the scale will allow you to live a superior live in this sacred world that must live Redemption.

I love you and I thank you for being more conscious of the Will of God.

The Most Chaste Saint Joseph
