DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN REDWOOD, CALIFORNIA, UNITED STATES, TO THE VISIONARY SISTER LUCÍA DE JESÚS

The celestial spheres must be more and more alive within you, every day. You, child, must be the portal to the Infinite, the bridge toward Divine Consciousness.

While the Time of God has not yet come to take the place of world time, and souls remain in the illusion of their confused lives, there will be battles and there will be conflicts between the planes and the realities that co-inhabit the planet.

For this reason, I tell you that your union with what is real must be consolidated from the inner to the outer, within the depths of your being, to then reach the world.

When you pray, when you seek God in silence, when you unite with the sounds of the sacred, when you adore your Lord in Spirit and in the Eucharist, you create paths and ways for your consciousness to enter into more elevated vibrations so that your essence may recognize and express the celestial spheres.

Thus, keep your heart within the heights. Allow the inner contact with love, grace and divine reality to become deeper within you.

Let the eyes of your spirit and the deep feeling of your heart open because then, child, you will be in peace and outside of the dimensions of conflict that are expanding throughout the world.

You have My blessing for this.

The Most Chaste Saint Joseph
