DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

XVII - The Peace of the Virgin Mary

Contemplating the world, as well as the innermost spaces of its consciousness, a soul sought peace and did not manage to find it. The confusion of humanity, the imbalances in humankind, illnesses, suffering, the lack of a true meaning to life, this is what this soul would see while seeking peace in the world and even within itself.

Therefore, asking for the help of God, this soul prayed to the Lord, saying: "Lord, if it is possible to feel peace in times of anguish, give me peace. If it is possible to feel You, even while in the desert, make me feel You. If it is possible to keep faith and believe that after this deep night the light of a new day and a new life will come, then grant me this faith, because I feel lost, alone and empty, and I cannot find anything but anguish and uncertainty around me."

And after observing this soul over a long period of silence, the Lord responded: "See, little soul, that your feet are spiritually upon a mount; this is the Calvary of the world. To go through it without losing faith, hope, or peace within, you must focus your consciousness on the true purpose of your existence.

Then, contemplate the Cross and each day relieve the Calvary of the Lord. Meditate upon the moment He would find peace in His Heart. and Imitate His footsteps. Perceive that it was in the gaze of the Most Holy Mary and in the certainty of Her silent presence, during the entire trajectory with the Cross, that your Lord, My Son, would find peace and be renewed so as to continue forward. It was in the eyes of Mary, the Virgin Mother of life, that your Lord would find hope and resume the purpose of each drop of His poured Blood.

The Calvary of these times is designed by the choices of the souls of the whole world. As one humanity, you must go through this test, but you, little soul, can either experience Calvary in the unconsciousness of the two thieves, or you can experience Calvary through renewing Creation, the laws and life, as Christ taught you to do.

If you then lose your peace, seek this peace in the eyes of the Virgin Mary. Pray to Her Immaculate Heart, and She, Who is the very Source of Peace for all life, will respond to you with silence, but with Her deep Love, with Her Peace and Her renewal. That is the way of finding peace in these times of transition."

May this dialogue, children, teach you not to linger in the anguish of the world, but rather to learn to renew yourselves in the Most Holy Mary, and find Her Peace, despite any tribulation in the world.

You have My blessing for this.

The Most Chaste Saint Joseph
