DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

It is necessary, at this time, My children, to grow up spiritually and humanly, to mature in your consciousness all the impulses received and place them at the service of the planet and of all its humanity.

To grow up spiritually is to understand the times in which you live, the urgency for a transformation in human consciousness and the certainty that this transformation begins and ends within each being.

To mature is to take responsibility for your own part within the Plan of God, knowing how to give your all in every instant.

When you pray, do it wholeheartedly, with your mind and spirit present, with whole feelings and words filled with their deepest meaning.

When you serve, do it completely, giving all of yourself, so that the Will of God may be fulfilled, without giving space to childish attitudes that always lead you to human comforts, to a place of inertia and not of sacrifice.

When you relate to your neighbor, know how to love them as they are, observe their miseries in the mirror of your own interior and, before you judge, be silent and look inside. The other is transformed by example and not by judgment.

Humanity is a living, unique consciousness, that sooner or later moves in chains. When a being takes a true step, their surroundings are transformed. Therefore, use the word to open the doors of the Kingdom of God and the example to transform what prevents this Kingdom from manifesting.

To mature humanly, children, is to leave the adolescent posture of being eternally served, cared for and supported, and begin moving to serve, care and support, not only the neighbor, but the Plan of God itself, the planet, life.

Just as an adult is responsible for their home, you are responsible for this world. The time has come to transform this attitude and take back your own home, because the laws are moving and the cycles are advancing into ascension.

To follow the movement of the Universe, you must grow up humanly and spiritually.

You have My blessing for this.

The Most Chaste Saint Joseph
