Daily Message OF THE VIRGIN MARY, ROSE OF PEACE, TRANSMITTED in Puerto López, San Carlos de Bariloche, province of Río Negro, Argentina, to the visionary Friar Elías del Sagrado Corazón de Jesús

Through the network of spiritual communication of the Mirrors, humanity and the planet receive the so necessary help in these times.

In certain spaces of the planet, more preserved and protected from human beings, there are Sacred Places, in the spiritual plane, that act as doorways of communication towards profound levels of the universe.

These Sacred Places that hold an immensity of tools to support and sustain the planet and its humanity, silently keep the balance of the axis of the Earth, of the poles, and of the continents, even though at this time the planet is beginning its purification, and so is humanity.

These Places keep certain safeguards so that they continue generating harmony when using these tools. In this sense, the Spiritual Hierarchy keeps its dwellings on the Earth until today, high in the Himalayas, in deep jungles, and in inhospitable deserts of the Earth. All is accompanied and protected by the Sacred Places, even if on its surface the elements of nature are purifying the planet.

In these Places, the human being can find, through prayer or only with their open hearts, a place where they can have a re-encounter with themselves and their origin.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
