Daily Message received in Medjugorje, Bosnia and Herzegovina, transmitted by Saint Joseph to the visionary Sister Lucía de Jesús

May your hearts be in peace, so that in peace you receive the designs of God.

Transcend that which is apparent and commonplace, for your consciousness to enter into the sacred and into what is true.

The Plans of God were already designed for each being, now the creatures need to put their feet on the path traced by the Creator and not the path traced by skills, temptations or difficulties.

To experience a superior reality is a higher decision that each being has to take, within and outside of himself, for it to resonate in your souls and also in your planetary bodies.

How often have we said that there is no more time? How often have we warned that it is time to enter into the Real Time? It is there where Truth inhabits and the illusion becomes visible for you to know how to distinguish the difference between being in the world in God and in being in the world without Him.

Choose, children, every day, the path of the Sacred and the elevation of consciousness. You will thank, in the future, for each renunciation made in the name of the evolution of humanity.

Your Father and Friend,

The Most Chaste Saint Joseph
