**Daily message of Mary, Rose of Peace and Lady of Carmel, transmitted in the city of Ávila, Castilla and León, Spain to the visionary Friar Elías del Sagrado Corazón, for the birthday of Sister Lucía de Jesús**

**I am the Guiding Star**

As the sun rises at dawn, so does the Guiding Star of the Lady of Carmel.

I come, on this day, bringing within My arms My small and beloved Son, who also gives you heavenly blessing and encourages you to follow Him in faith and love.

I am the Guiding Star and souls can take their steps through My Light.

I am the Guiding Star and through me the hearts of the world can find the way out.

May the souls see, in these times of tribulation, the Guiding Star of the Lady of Carmel so that humanity may be encouraged to experience its moment of redemption and forgiveness.

Today I extend My Guiding Star beyond Spain and radiate, at this time, the heavenly codes of redemption, so that hearts may find Christ on their paths and experience Him within as the only truth.

I am the Guiding Star and I raise the planetary consciousness so that humanity may also be raised.

The Guiding Star of your Lady at this time returns brighter so that humanity can finally awaken.

This Star is not physical nor visible, it is the spiritual and inner Star of your Lady of Carmel that manifests itself in order to generate a greater conversion within the souls of humanity, those who do not repent nor surrender to the Lord.

The Guiding Star of your Lady can communicate the universes and unite the dimensions of the consciousness.

It can dissolve abysses and guide the fallen souls towards eternal Light.

The Guiding Star of the Lady of Carmel can penetrate within the unconsciousnesses of human beings and change future events.

This holy Guiding Star can help dissolve the past to improve the conditions of the present and open the doors for a better, spiritual and inner future.

The Guiding Star of the Lady of Carmel builds newness and solidifies unity among consciousnesses.

She can renew the present and, at the same time, liberate the past.

She attracts towards humanity the principle of healing and manifests forgiveness within Her essence as a path toward reconciliation.

The Guiding Star gives back to the world the meaning of its existence and makes it conscious of the steps that need to be taken, in Christ, in the future.

She gathers the self-summoned and makes them conscious of their real mission.

The Guiding Star of our Lady of Carmel brightens the path of those who navigate in the sea of love and guides those who are submerged in the ocean of the Mercy of God.

Throughout the ages, I have shown you My Guiding Star in different forms, a star that I infuse and propagate, multiplying it as light within the hearts of My children.

Today, I bless the path of My child Lucía de Jesús, who has risked to live this service for humanity with her Heavenly Mother. May the age that she has turned today represent maturity for new stages of her mission.

May the Guiding Star of the Lady of Carmel guide the paths of the seekers of Christ.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
