DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDÚ, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Observe within the signs of nature, the expression of the spirit of the Earth. Through the elements, sense the deepest feelings of the planet that shelters you.

The Earth lives and expresses through the Kingdoms, giving humankind knowledge of the intensity of its heart.

When the winds stir, rains fall and lightning ignites the skies, lighting up that which the clouds had darkened, feel the Earth liberating hearts and let your spirit also be cleansed by its water of life.

When the sun shines on the horizon and the blue sparkles in the sky, painting the air of the Earth with a new day, you also experience the renewal that the elements bring, and thank the Father for the opportunity to begin again.

Like the Kingdoms of Nature within their seasons, child, let yourself be transformed by life. Revere the cycles that the Earth brings you and live each moment with gratitude, for in all things there is a message from God, for you.

Enter into yourself by facing Nature, so as to enter into the depths of the Earth and become a knower of its science and its spirit.

Life has a lot to teach you, it is enough that do not go through it with indifference and superficiality.

Contemplate the depths of the All and one day you will truly understand why you are here.

Your Father and Friend,

The Most Chaste Saint Joseph
