Daily Message of Mary, Rose of Peace, transmitted in the Commune of Luz-Saint-Sauveur, the High Pyrenees, France, to the visionary Friar Elías del Sagrado Corazón

If everyone knew what these sacred mountains of the Pyrenees hold, humanity could already be different in knowledge, divine science, and inner healing.

It is for this reason that your Heavenly Mother has called on you to go on pilgrimage and to end this journey of long work at the foot of the Pyrenees, so that a prompt regeneration may be established and that it encourages the union of your essences with the sacred Mission of Our Lord.

I have also asked you to come here to help me generate an important current of spiritual regeneration in the souls that need it the most because if they do not receive this divine help, these consciousnesses will not be in the inner condition to face the final time.

Thus, your Heavenly Mother has you reach the Pyrenees so that this source of regeneration and healing for humanity may be able to emerge once more, as it happened a long time ago, in the grotto of Lourdes.

Thus, your Universal Mother will try to reactivate in this region a monastic task of prayer and spirituality that will help the French consciousness to inwardly recover certain codes it has lost. Know that all this work will be preventive and will help many consciousnesses on the inner planes.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
