**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE CITY OF MONTEVIDEO, URUGUAY,
TO THE VISIONARY SISTER LUCÍA DE JESÚS**

To be true is a spiritual attribute of those who aspire to be transformed and who do not fear being nothing; therefore, they show themselves as they are. So God can shape them as He needs you to be.

Although everyday you strive to be others, never force something that you have not yet achieved. Each step you take must be true, even if it is small or slow. Every transformation in your lives should take place in a simple and natural way, because if you become accustomed to being true, you can gradually discover what you are in truth and will make emerge that which originally exists in your essences.

What matters most at this moment is that you be simple, that you do not be afraid to be what you are and to give this every day to the Celestial Altar.

To those who are true, God will give them the Truth about themselves, about humanity, about the planet, about the universe and about His Plan. Those who are true and simple will find the path so that they may merge with The One who is the Universal Truth itself, the Truth of Creation, in which all the original archetypes of everything created are kept.

Do you realize, then, that I want to bring you to something broader that embraces not only your little lives and not just this world?

You, my dear ones, are creatures who can unite with God by your nature, for this is an attribute you hold as a human civilization. This possibility of unity with God must be brought into the universe, so that you may compose the unity with the other civilizations of the cosmos and place your part on the Creation table, so that everyone may share the best that every creature of this universe can bring, so that the Perfection of God is manifested.

Begin with simple things, being truthful in your daily lives and not being afraid to express yourselves as you are, but always knowing that the purpose of being true is to find the Truth, which in no way resembles what you are now. Also, keep always in your hearts the notion that all life on Earth is moving towards an unity with God.

Think broadly, feel broadly, pray transcending planetary life, serve a universal purpose, live for the fulfillment of a cosmic plan.

My hands dissolve the frontiers before your eyes and can cross the infinite.

The Most Chaste Saint Joseph, for the awakening and maturation of the true human consciousness
