**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

When you place your thought in God, you may draw His Will into your life.

When you place your heart in God, you can be in the Divine Presence and the Father, your Creator, can live in you.

When you place your consciousness in God, you bring His Kingdom to Earth and, from you, life begins to go through a transformation until it reaches that perfect principle that was thought of by the Creator.

To pray for an instant is to place your thought in God.

To pray and to serve, making the prayer around you alive, is to place your heart in God.

To pray, to serve and to be compliant with what you would be if you were certain that the Eyes of the Father are always observing you, is to live with your consciousness in God, seeking to please the One Who observes you, to console His Heart from all indifference and, more than that, to ardently aspire that all beings, wherever they may be, can participate in the grace of living in God.

Therefore, pray, child, and practice being with your consciousness in God. Not so that you feel persecuted but rather so that you feel yourself to be loved, accompanied and protected, and that this same Love that you receive causes you to love more and better.

Live with your consciousness in God to draw the New Life to this world.

You have My blessing for this.

Your Father and Friend,

The Most Chaste Saint Joseph
