Daily Message received of the Glorified Christ Jesus, transmitted in the Cerro Arequita, Lavalleja, Uruguay, to the visionary Friar Elías del Sagrado Corazón de Jesús

The time has come, in the surroundings of Cerro Arequita, for a communal space where the spiritual healing of Aurora is able to be present for surface humanity.

I am speaking of a space in which inner and spiritual healing is able to encompass the consciousness of human beings, who have gone through traumatic life experiences, through unforgettable suffering, which their own cells need to heal and release.

For this reason, this space will be built and offered by the groups of the Uruguay Light-Network so that the Kingdom of Aurora has another extension on the surface in Uruguay, and the work of spiritual healing that the epicenter of the Greater Aurora offers may have a deeper and more efficient continuity.

This is the meaning of this place being consecrated to the Hierarchy with the name of Blue Aurora, which is the symbol and the meaning of the illumination of the spirit of each being after having left mortal darkness.

This project of your Lord will also have a place where the members of the Light-Network will be able to carry out a rhythm that complements the support that Casa Redención needs for this new stage.

Blue Aurora will be the possibility of finding again the meaning of the incarnation and of the life of the spirit.

I thank you for keeping My aspirations in your heart!

Who blesses you,

Your Master and Lord, Christ Jesus
