DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

In the battle of these times, reassert your faith every day through prayer and spiritual maturity. Strengthen unity with one another, transforming within yourselves that which injures your neighbor and destroys love amongst creatures.

Observe yourselves, so that you may be guardians of the Plan of God, in yourselves and on the planet. Unity among servers is the greatest strength that you can offer to God as humanity: this is what will keep open the door that leads you to the Father, to His Presence, His Wisdom, His Grace.

In the battle of these times, vanquish yourselves every day, in order to know how to make yourselves available to planetary service, overcoming the limits of the consciousness and receiving the sustenance from Divine Grace, which will reveal to you the potential for overcoming that exists within you.

In the battle of these times, prayer will be the door for your return to the Heart of God, but unity and love among you will allow the Father to be always present, even though you do not see Him or feel Him.

You are, children, in a time of battle, but not like the battles on Earth nor like the spiritual battles that humanity already knows. You are before something unknown and that, to be overcome, you need to find, within yourselves, the love that will triumph above all things, just as the Love of Christ triumphed upon the Cross .

The Creator allows you to pass through the battles of these times, as He permitted His son to live the suffering on the Cross, because this will reveal to you who you are and what you have come to do in this world. Therefore, persevere in love, seek peace and care for unity.

You have My blessing for this.

You Father and Friend,

The Most Chaste Saint Joseph
