DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

The Resurrection of Christ, child, means the beginning of a new time, in which humanity will be able to understand that which it came to the world for and what the path is that it is to follow in order to bring its existence into fullness.

The Resurrection elevates you above the greatest human fears, which are suffering and death, and places you in the truth of the Eternal Time of God so that you may know that the one who gives all of their self to God receives from Him all that He is, and participates in His Glory in unity with His Kingdom.

Resurrection is infinite rejoicing, divine and universal, because it is the revelation not only of the Face of God, but it is also the revelation of the face of humankind, as children of God and creatures in likeness to their Creator.

The path to the Glory of God is absolute surrender, unconditional love, full and total, which is born from the deepest core of human submission.

You already know about all these things, but you must remember, because the condition of the planet will make you face situations that will lead you into experiencing this: choose the cross, surrender, eternal life in Christ.

Year after year, you are led into remembering the Life, the Death and the Resurrection of Christ so that when the time comes for the Easter of this world, you will be able to follow in His footsteps.

For this reason, love your Lord more each day, His Life, His example, His surrender, His eternal Consciousness, His Path, His Truth, because this same Love will allow you to imitate Him.

You have My blessing for this.

The Most Chaste Saint Joseph
