**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

May peace reign in the hearts of humankind so that, through this peace, you may come to know how to find the Wisdom and the Love of God, to manage each situation in life.

Children, while the world is in agony and cries out for support and real love, most of humanity loses itself in distractions and indifference, in conflicts and in the constant stimulation of technology and chaos.

May peace always reign in your hearts. Do not allow yourselves to be stimulated and influenced by the individualistic and egotistical speeches of these times, but instead always remember to serve and love unconditionally; remember to look at your neighbor with love and move beyond their errors and miseries so that, in this way, you may mutually help each other to arrive to God.

Before correcting, you must first love, so that your correction does not transform into judgment, but rather it may be an instrument for souls to resume their path to God. When looking at your brothers and sisters, before observing their defects, seek the perfection of God and ask for the Grace of feeling the Love of the Father for His creatures.

In the final test of humanity, when each being will be tested in their love and in their faith, seek always to have the Eyes of Christ within your eyes, and the Heart of the Redeemer in your hearts. Let Him live in you more each day; yield space for the Lord and fervently ask that He may live in your inner dwellings.

Remember that, with your lives, you write the Gospel of the Return of Christ, with your lives you prepare His way, with your lives you light the torch that shows the world where there is Light in the middle of darkness.

For this reason, pray, and do not tire of praying. Serve and do not tire of stepping out of yourselves for a neighbor. Love and be compassionate. With your own lives declare the power of Mercy.

You have My blessing for this.

The Most Chaste Saint Joseph
