Daily Message of Mary, Rose of Peace, transmitted during the journey from the city of Santiago to the Olmué Commune, Valparaíso, Chile, to the visionary Friar Elías del Sagrado Corazón

Now, dear children, that part of the souls of Chile have been gathered and awakened to the path of the concretization of a greater life, your Heavenly Mother expects this mission with the consciousness of Chile to continue to bear fruits of love and light.

For this reason, dear children, it will be necessary to know how to care for and protect the bases that were established so that souls may, from time to time, take steps toward a deeper awakening.

In this way, dear children, all that you may do for this dear country will help new consciousnesses, who are also awaiting to awaken, to receive the same opportunity that your brothers and sisters of Chile received during these last two days.

You must take care that this flame kindled by My motherly Heart does not extinguish, but that it leads each heart through prayer, service, and instruction, to be able to have greater awareness and motivation for universal and Christic life .

I leave you this invitation for the purpose of generating in this part of the world a new Light-Community .

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
