DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE CITY OF MEDJUGORJE, BOSNIA AND HERZEGOVINA, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Devotion: A Door to Liberation

Devotion, children, is a Gift of God in the hearts of human beings, a Divine Ray placed inside beings so that, when active and awake, it may lead you to return to the Heart of the Father.

Devotion activates in human consciousness its potential to unite dimensions, to dissolve all barriers which separate hearts from God and to open doors so that beings may be liberated from all that impedes them from reaching the Father.

Devotion is like a magnet that raises the consciousness towards God and, at the same time, purifies it so that it may reach the Father.

Devotion allows hearts to recognize the need to be in God and, when this devotion is mature and evolutionary, beings are conscious of the need to create a condition so that those who do not manage to, may also have the possibility of reaching the Father.

Devotion, which is born in the heart and rises towards the consciousness, allows beings to mature their lower nuclei and transmute them, because the energy itself allows you to understand that it is necessary to transform oneself in order to reach God.

Devotion is a door towards planetary liberation and a safe path to awaken and activate the mirrors of your hearts.

Devotion must always deepen within beings, raise their vibration and stop being an emotional process to become an experience, a spiritual and inner condition of beings.

Devotion must keep rising from the heart to the consciousness so that you always know how to open the doors to reach God.

Allow devotion to express itself in your hearts. Do not be afraid to transform yourselves and become pure before God, for this is what will make you return to the Father.

Your Father and Friend,

The Most Chaste Saint Joseph
