DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED DURING THE JOURNEY BETWEEN THE CITY OF FLORIANÓPOLIS TO SÃO PAULO, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Trees and life - Part I

From the interior of the Earth, the Plant Kingdom absorbs the wisdom and the story of the human evolution, holding this legacy within itself, and it offers it constantly to God through its elevation, its physical and spiritual growth.

The great forests are large receptacles of wisdom, great mirrors, that return everything to the Heart of God that He sends to Earth as divine rays and vibrations, which assist in the evolution of all of life. In this way, life on Earth is always renewed through the emanations of the great trees. The Lord receives the human experiences in the Creator Sources and renews them, sending new rays and impulses to Earth according to what humanity needs to evolve and return to God.

If hearts would only contemplate the forests with gratitude, they would be able to feel and perceive these and other mysteries of the science of life.

Trees are communicators, mirrors of God, that receive everything that He sends to Earth and they also communicate in the development of life to God.

Contemplate the Kingdoms with reverence and, in silence, search for the mystery that is kept within in them. Thus, child, perhaps one day the mystery about yourself will be revealed to you.

Your Father and Friend,

The Most Chaste Saint Joseph
