Daily Message received in the city of Palermo, Sicily, Italy, transmitted by the Glorified Christ Jesus to the visionary Friar Elías del Sagrado Corazón de Jesús

There are aspects and states of consciousness in the human being that only love, mercy and patience can transform, because these human aspects have very relevant past histories, which interfere in the awakening toward service and absolute surrender.

When at a certain point you become aware of some of these aspects, it will not help to enter into conflict, guilt or battle. You must make use of the noble wisdom of the heart and, through the love of the spirit, transcend these moments in peace.

You must know that in the same way that surrender and service allows these aspects to be progressively redeemed, the same thing happens when the human aspects are removed from their ancient place to be dissolved by the light and the love of Divine Wisdom.

At times, you will manage to shift above these human aspects that cause you to commit failed acts. In other moments, you will fall into the prisons of these aspects, but you must not allow yourselves to be defeated nor intimidated.

The aspects are like raw wood in the human consciousness which, in the hands of the carpenter, is polished of all excess and shaped so that it may finally be turned into something beautiful.

Through My Mercy, these aspects lose force of action and independence because the Mercy of My Heart transmutes them and redeems them until the human being achieves the living of the spiritual model that God expects from each one of His children.

I thank you for keeping My Words in your heart!

Who blesses you,

Your Master and Lord, Christ Jesus
