DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

After experiencing the meeting with God, hearing His Words and participating in the revelation of His Designs, souls must then grow, strengthened by Celestial Laws; they must live everything they have learned and, with their lives, they must disseminate the Grace that they have received, in their examples, their love and the profound emanation of their hearts.

After experiencing the meeting with God, souls must then define themselves, be reconfirmed and walk onward to discover the Divine Presence within themselves, and thus, hear His Voice in each instant of their lives.

Each meeting with God brings an impulse that must resonate within the being and manifest in human life through deep transformations, achieved by those who have heard the Voice of the Creator.

The Voice of God resonates, children, and must not only be heard, but also be made flesh and life in all His children.

The time has come to not only be called disciples and companions of Christ but, above all, to testify to His Presence and the echo of His Voice with your own life. The Gospel of the end times have already begun to be written, and it is done through the Words of God, and through the testimonies of His children.

You must be witnesses of the Words of Christ.

You have My blessing for this.

The Most Chaste Saint Joseph
