PRIVATE APPARITION OF THE GLORIFIED CHRIST JESUS IN REDWOOD, CALIFORNIA, UNITED STATES, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS, FOR THE SECOND DAY OF THE 79TH MARATHON OF THE DIVINE MERCY

In the name of the Father, the Son and the Holy Spirit. Amen.

It is in the silence of God where the greatest and most precious treasures of Creation are kept. Witnesses of all these treasures are the trees, in their diversity and manifestation, in their expression and beauty.

Trees are the temples that bring to Earth the Principles of God. They attract from the Universe the higher energies that humanity needs, to elevate its consciousness and be healed.

Today you are in a place where I have expected you to come for many years, one of the most important places in the world for God.

Here lies not only the witnesses of the Creation of the Father, since millions of years ago, but, even more, present here are the guardians of the original legacy of humanity which, through the sacred White Mountain, are the ones that guard and protect this sacred knowledge that comes from the Brotherhood.

Northern California is the inner receptacle of the original legacy of humanity, something that today the minds do not know, and they now hear it for the first time.

The great watchers of the Plant Kingdom are present here, fulfilling a task since millions of years ago, since before humanity existed upon the surface as consciousnesses and as beings.

I have brought you all here, in the inner planes, so that you could remember and participate in the Origin of your origins as humanity of the surface, as consciousnesses that must evolve and attain the degrees of love through Me, as well as through the Kingdoms of Nature.

These great trees are witnesses of the errors of the different civilizations of humanity, of the events that happened and marked Creation, not only within this planet, but also outside of it, in the Universe, throughout Existence.

They feel all that humanity of the surface has done, all that humanity has generated since the first moment in which it existed upon the surface of the Earth, up until today.

This suffering is transmuted by the great trees of Northern California, as well as by another part of the Kingdoms, and humanity has still not become aware that this happens.

The trees of Northern California are a great mystery for humanity of the surface. It is time for humanity to discover the value they have and the spirituality they bear as a soul group of the Plant Kingdom.

They are also the great guardians and watchers of the inner Retreats of the planet. They are present throughout the Andes, each species and each tree, fulfilling a main function, essential for God.

They are temples that hold the one thousand portals to which humanity needs to access through the true and only time that surrounds them in the Universe and in the Solar System.

Through the great trees, you will find access to the superior reality, and you will be able to experience all that this superior reality holds, which comes to meet those who seek the Peace and Love of the Universe.

Trees have experienced the suffering that the planet has lived and all that humanity has generated toward it. Even so, they are present here, sustaining that which the humanity of today cannot sustain, donating that which humanity of today cannot donate and give to the Eternal Father.

Their silence and immobility make them great and strong to sustain the axis of the Earth and the heart of this planet.

But now is the moment for all this to come to light, for no one to be ignorant, any longer, for nothing to be imperceptible nor hidden any longer.

They need the love of the humanity of the Earth in order to keep fulfilling their spiritual and inner task.

They were also witnesses of what happened to your Master and Lord, long before your Master and Lord existed among this humanity, through the incarnation in the humble manger of Bethlehem.

The great Archangels of God were who helped, and they gave Their knowledge for creation and for the manifestation of this expression and beauty of God, through the devas and the lower angels. Because the trees beat and vibrate in a most important melody that humanity of today does not know.

By simply approaching them, it is possible to recognize and feel them, and know that the great trees kept in Northern California are the old ancestors that did not want to leave the planet in order to help it in its process of evolution and healing.

The great ancestors of the Indigenous peoples of North America are here. Their wisdom, their humility and their love have allowed them to express this grand manifestation of the Creation of the Plant Kingdom, which surpasses the limits of human consciousness, not only mentally, but also visually.

The great trees have a lot to give to the humanity of the Earth. They only need to be recognized so that their essences can open up and be shown, just as today they are shown to you, in profound and unconditional simplicity.

Their offering and surrender were so great that they gave of themselves, through the wood of the Cross, to be able to help humanity, through the surrender of the Son of God. This is why they are the great witnesses of yesteryear and are the ones that bring to humanity the sacred knowledge of Creation.

The trees are a life not yet understood, and they have, in their composition, that which the human being needs in order to evolve and awaken, each day more.

In these sacred spaces of the plant universe, the sacred Hierarchy also retreats in order to be able to think and meditate upon the next steps of this humanity and this planet, just as of the whole Universe.

God is found in the simplest places, where He is visible in His different manifestations.

I want you to know that the great trees of the planet will keep being the witnesses, but, in this cycle, they will be the witnesses of the final time.

Humanity has damaged, outraged and wounded them, and the blood of their sap has a price for the whole human race. The lack of connection with the Heights and with the Universe is the reason for so many psychological and psychiatric imbalances.

They also lived their passion, so similar to that of your Master and Lord. Therefore, the reconciliation and forgiveness of humanity are indispensable for these times, so that this chain of damage and destruction of the Plant Kingdom may be cut.

Rejoice, because you are conscious of all this knowledge and, above all, of what they have wanted to say for millions of years, and yet, no one has heard them. Today is the first time that this happens, because your Master and Lord offered that all this might take place, according to the Will of the Father, the Son and the Holy Spirit.

When human beings of the surface understand why each Kingdom exists, humanity will evolve and no longer become lost in sufferings and tests.

This is why these great trees are in the North of this planet. They are the great absorbers of the divine principle and energy for humanity. They have been fulfilling this and doing this for millions of years. It is an eternal service of love for souls and for all planes of consciousness.

Now I say to the world that this is the moment to rebuild the Planet and heal the Kingdoms of Nature, to plant trees and regenerate life, the soil, and, above all, the consciousnesses that have never been attentive to Creation and that are here to serve it, to make it grow and awaken.

The inner Retreats offer these keys for all human beings, regardless of their spiritual, mental or material condition, because the great trees of North-America are present and exist so that the men and women of the Earth never forget to return toward the Origins of their essences, which is love, harmony and inner and spiritual balance.

Although the world is in turmoil, in the silence of the Temple of Trees, of the one thousand portals, the planes of the One Divinity open so that all may receive and welcome the donation that they give, in their silence and firmness, so that healing may regenerate the consciousnesses, and the consciousnesses may find the path to enter into communion with Creation.

In silence, listen to the soul group of trees, of the great witnesses and guardians of North America and the world.

May humanity react and no longer self-destroy nor destroy its lower brothers and sisters, which in this case is the Plant Kingdom, nor may they longer destroy the elementals, devas and angels which, in their quietude and silence, watch over and protect humanities evolution as a race and as consciousnesses.

Be touched by this powerful light that comes from the great trees of North America and, from the coronary to the South of the planet, may all be transmuted, transubstantiated and elevated under the unconditional love of Creation and of its great rulers of the Universe.

In the name of the Father, the Son and the Holy Spirit. Amen.
