PRIVATE APPARITION OF THE VIRGIN MARY IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

In the name of the Father, the Son and the Holy Spirit. Amen.

As a Mirror of Light, I come today from Sirius to bring you the message of love of the stars, fruitful and divine stars that have been witnesses of the events of the sidereal universe.

In these stars, My children, lies the history of your existence, the Origin of your origins, the Truth that is still hidden and will be revealed at the end of these times.

On this day, I want you to elevate your consciousness toward these sublime spaces so that the reality and the situation of the surface of the Earth may be transformed and redeemed. In this way, your souls and your consciousnesses will widely participate in the internal commands of the cosmos. Your consciousnesses will open and be able to receive the Sacred Knowledge that will continue transforming everyone.

From Sirius, a message of hope is sent to the world. I am the Governess of the Mirrors, I am the Universal Mother, and I bring to My children, in this cycle, all the attributes and gifts that they need in order to be able to keep moving forward, although the situation of humanity is ever more critical and difficult.

I encourage you, My children, to place your consciousness in the Heights because from above will come the help you need. From there will always arise the most pure sources of renewal and healing, of transcendence and, mainly, of forgiveness.

I invite you, My children, to elevate your consciousness to the constellation of Sirius so that, from there, your souls and spirits, on this day, may receive the impulses of this sacred and blessed place.

Thus, in this universe, there are other such important and blessed places that guard the history of all the existence of your race and of others.

Dear children, I invite you to awaken the spirit of brotherhood in this time. So that this may be possible upon the surface of the Earth, and so that the Third Order of the Brotherhood may arise, it is necessary for you to live in fraternity and unconditional service, even in the smallest details. If this does not happen, My children, in this time the currents of the universe that want to come to assist humanity will not be able to.

Representatives of this human race on the surface of the Earth must be mirrors that can reflect what the universe will send to you as an impulse and as help. For this, your redemption must be ever more conscious, profound and true, without losing time in each opportunity that the universe places before you to be able to learn and also evolve.

From Sirius, an impulse of ascension arrives, the ascension of consciousness, but also of your material life, so that each action, each movement may be sublime and correspond to the movement of the Universal Laws, which a great part of humanity does not fulfill, which is the reason why it

suffers and endures.

My children, this chaos must be transmuted into another form, elevating your consciousnesses towards the universe so that the immaterial Source may send you the help everyone urgently needs.

Sirius needs to build within in you the pillars of a New Humanity. Although it seems impossible at the moment that this could happen, in face of what humanity lives in these times, have faith, My children, in all that I tell you, because if today I am here, it is because it is possible, and it will be fulfilled.

Opening My hands and expanding the Light of My Immaculate Heart, I pour out, through the Rays of Light, the attributes and principles of Sirius that humanity needs in order to carry out the great change in consciousness.

It is up to Sirius, as a constellation within this material universe, to give the last impulse so that humanity can be redeemed. My Son has entrusted such a sacred star as this one to fulfill this task at the end of these times.

Sirius is preparing to carry forward this mission and to have all possible consciousnesses participate through your awakening.

If humanity does not change its attitude and its ways, how will change come? How will the great turn of the human consciousness take place toward its process of redemption and Christification?

My children, may your consciousnesses open even more to receive the impulses of the universe, so that these impulses, which are not personal but rather of a group nature, may expand internally to the world.

For this reason, your work of permanent prayer, especially for peace in the nations of the world, is the great key of these times.

In the inner planes, souls can communicate between one another to receive these impulses that the Universal Mother brings from Sirius.

It is in this way that I allow to emerge, from within My Heart, the great mirror of love of Sirius, so that the world may receive this impulse and may learn to understand the message, learn to know what this means for this moment.

You must not miss the opportunity of listening openly. I not only need you to listen to Me, My children, but also that you understand Me, that you participate in this cosmic and universal conjuncture that presents itself today on November 13, 2020.

So, for what is left of this year, and for the beginning of next year, you will be even more prepared to face the end time.

My children, the impulses that the universe sends will prepare the new tribes of Israel so that these tribes may consciously wait for the Return of Christ.

All is part of a great network of cosmic and universal communication, not only on the material plane but also on the mental and spiritual plane. Thus, the Creator Fathers and their hosts of Light participate in this movement and in this command that My Son has given as an order to be carried

forward.

If this is happening, at this moment and in this moment of humanity, it is because great situations will present themselves and you must be well strengthened and aware, not only of what you feel but also of what you do. This will represent the possibility that the doors of Mercy may open or they may close.

By means of the prayer of the heart, of the conscious, profound and true prayer, may your souls also be mirrors and receptacles of the impulses from Sirius.

The great star of Sirius sends its message of peace to the world, it sends its sidereal blessing.

I hope My children may understand what I am saying and that this may not be just another message. Your interest in the quest for the elevation of the consciousness is also the great key of the end of times, because by elevating your consciousnesses, you will elevate the consciousness of your brothers and sisters, of your families and of all your acquaintances, of all humanity.

The great battle of the end of times will be won through the adherence, the obedience and the interest of your hearts for all that the Hierarchy does. There lies the great tool to defeat evil, because through the fulfillment of these principles, unity and peace will be established.

I leave you, through My Heart, the great mirror of the consciousness of Sirius so that in your prayers you may contemplate and recognize it as the great help that comes from the stars.

I bless you and encourage you to continue forward in the transcendence of these times, in the action of immediate response.

In the name of the Father, the Son and the Holy Spirit. Amen.

Friar Elías del Sagrado Corazón de Jesús:

United at this moment to the Universal Mother, trying to feel and recognize this impulse that the Divine Mother brings to us, united to Her request and Her intentions, let us say the prayer of the Universal Mother three times. Once in Spanish, once in Portuguese, and once in English, for us to join this great inner network of souls that receive the impulse of the Mother of the World on this day.

And we ask for the grace of being able to understand and recognize all that our Mother says to us, so that we may consciously live it.

Prayer: Universal Mother (in Spanish, Portuguese and English).
